TrekStor®
Enjoy now.

USB-Stick SE

USB-Stick with integrated protective metal cover

Mobile storage
Saving, copying and transporting data made easy: The USB-Stick SE is simply connected to a USB port on your computer and works as an additional drive. You do not need a cable or adapter, no additional power connector and driver software

Fast file transfer
Due to the extremely fast USB 2.0 connector, larger amounts of data are transferred instantly to the portable memory. Of course, the USB 1.1 port is still supported.
